

WHO WE ARE

CollegeSpring is the only national nonprofit that provides in-school preparation on standardized tests to help first-generation students from low-income backgrounds unlock better college and career opportunities after high school.

OUR PROGRAMS

- ACT Prep
- Digital SAT Prep
- TSIA2 Prep

“ [COLLEGESPRING] IS BY FAR THE BEST SAT PREPARATION THAT I'VE EVER SEEN. THEY PROVIDE ALL OF THE SUPPORT THAT YOU NEED: [THEY'RE] SUPER USER-FRIENDLY; STUDENTS LIKE IT; AND THEY'RE JUST AN AMAZING RESOURCE. ”

-BILLY CASTANHA, AVID TEACHER

OUR IMPACT

Since 2008, CollegeSpring has served more than **40,000** students across 50+ schools and organizations—over the next three years, we aim to serve **60,000** more. We have a track record of adapting and rising to meet the needs of educators and students, honing our expertise in **college and career readiness assessments** so that students can access greater opportunities.

Scaling our work is not just about the numbers; our purpose is to systemically embed our program inside the education system. We focus on schools with a high concentration of poverty and a majority of students who are below the national test score average.

83%

of surveyed students said they felt more prepared to take the test after CollegeSpring.

HOW WE DO IT

CollegeSpring harnesses the **power of teachers** by empowering them with instructional coaching, digital curriculum, lesson plans, and data analysis—all housed in a sophisticated Learning Management System (LMS).

Teachers, whom students already know and trust, deliver our program during the school day and help students boost scores on the ACT, SAT, and TSIA2, increasing their access to scholarships and **eliminating roadblocks to success** through dual enrollment or avoiding remediation.

CollegeSpring students are not only building foundational skills in math, writing, and English, they are also **gaining confidence** and building life skills like goal-setting and resilience.

Why CollegeSpring Works

SUCCESS ON TESTS REQUIRES MORE THAN PRACTICE

Students need to:

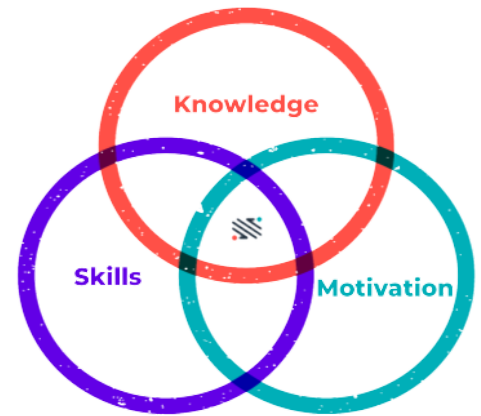

- Know how the test can change their future trajectories and feel motivated to use it as a lever to unlock opportunity;
- Achieve the academic skills to perform effectively on the test; and
- Have knowledge about the college application process and the role of tests in admissions and financial aid.

Together, these build a student's **Test Confidence**, leading to results that set students up for success on the test and beyond. ○.....

Test Confidence

WHAT MAKES COLLEGESPRING UNIQUE

- 1 WE ARE MEETING THE MOMENT FOR TODAY'S STUDENTS**
Teachers have limited time to create new lessons, grade, and learn new topics. We provide a solution to those strains through automatically graded, time-saving lesson plans.
- 2 WE EMPOWER TEACHERS WITHOUT ADDING TO THEIR WORKLOAD**
Teachers are the magic, and our curriculum equips them to build their relationships with students and drive the learning home.
- 3 WE PROVIDE DIFFERENTIATED INSTRUCTION IDEAS AND SUPPORT**
Teachers are overwhelmed with mandates but lack the concrete actions to fulfill them. Our resources provide immediate ideas and support for English Language Learners (ELL) and students who are below grade level.
- 4 THE RETURN ON INVESTEMENT IS HUGE**
By helping students meet benchmarks, we help districts and schools access significant opportunities for incentivized funding.

WHAT OUR MODEL OFFERS

- 1 LEARNING MANAGEMENT SYSTEM**
that can integrate into your school's current system with plug-and-play activities and assignments to lighten the load of class preparation.
- 2 PROPRIETARY CURRICULUM AND RESOURCES:**
 - Between 20 and 40 core lessons covering official test standards;
 - Additional 10 College Knowledge and 6 Motivation & Mindset lessons that grow the whole learner; and,
 - Robust Teacher Facilitation Guides that include differentiated and detailed instruction.
- 3 PRACTICE TESTS THAT MIMIC OFFICIAL EXAMS**
with tools and formatting that build Test Confidence with exam familiarity. Students are exposed to more than 1,000 unique practice questions throughout the course.
- 4 STUDENT AND AGGREGATE CLASS/ SCHOOL DATA REPORTS**
that provide insight into which skills students are struggling with and in-depth reports showing progress toward official readiness standards.
